

fund

The growth engine for social enterprises and foundations

we are consultants

but different

we are impact driven

B Corp Certified

we deliver lasting results

MT1000 — 2025

we flipped the model

FD Gazelle

The organisations doing the most important work have the least budget for strategic support.

We kept running into the same pattern. Social enterprises, NGOs, and mission-driven organisations doing work that really matters - on climate, inclusion, education, circularity. With clear ambition and real potential. But no budget for the strategic help that could unlock the next step.

Impact that could have been, stays on the table.

Without strategic support

Core questions stay unanswered. Growth stalls.
The right commercial model never gets built.
Market research stays on the wish list.

And the cost is real

Every mission that stalls equals impact that doesn't happen. Emissions not reduced.
Opportunities not created. Lives not touched.
That's not a shame, that's a loss.

So we flipped the model, again.

Through the nlmtf fund, we put our people to work where they're needed most, at one-third of our regular rate. Not a lighter version. The same experts, the same approach, the same ambition.

1%

Skin in the game: voluntary contribution from every nlmtf entrepreneur

100%

Matched by nlmtf - every euro, doubled

80%

Of our entrepreneurs are already participating

Is the fund for you?

Every fund project meets these three criteria.

01

Mission-fit

You're a nonprofit or social enterprise with a clear, positive societal impact.

02

Consulting-fit

You need nlmted expertise — strategy, growth, organisation, innovation, or similar.

03

Financial-fit

You can't afford our regular rates but can contribute at least one-third of the cost.

Day rate typically around €250–€500 - depending on type of work, experience and seniority.

fund project | SKAO — scale certification

CLIENT Stichting Klimaatvriendelijk Aanbesteden & Ondernemen (SKAO)

PROJECT Scale CO₂ certification and knowledge sharing

Christian Seidl supports SKAO / CO₂-Prestatieladder with project management and strategic advice, validating and unlocking a new sector for their CO₂ management certification. He organises Community of Practice workshops to share knowledge and strengthen the network, helping organisations across the Netherlands reduce emissions.

DURATION

2 days/week · 6 months

PERIOD

October 2025 — March 2026

Stichting Klimaatvriendelijk
Aanbesteden & Ondernemen

fund project | N&M — shape circularity

CLIENT **Natuur & Milieu (N&M)**

PROJECT **Shape raw materials program and vision for sustainable chemistry**

Susan Haasdijk supports Natuur & Milieu in shaping their raw materials programme and developing a vision for sustainable chemistry, helping accelerate the transition toward a circular economy.

DURATION

4 days/week · 3 months

PERIOD

October 2025 — December 2025

fund project | SKB — set-up impact fund

CLIENT Samenwerkingsverband Kansengelijkheid & Burgerschapsonderwijs (SKB)

PROJECT Pilot and implement impact fund for equal opportunities in education

Roos Spekman & Lotte Kortbeek support SKB and their social impact partners in finalising, piloting and implementing an impact fund, ensuring structural financing for organisations that provide additional educational services to children, creating equal opportunities across the Netherlands.

DURATION

3 days/week · 6 months

PERIOD

November 2025 — April 2026

Recognise this?

Let's talk.

Your mission is clear. Your budget is tight. We'd like to help.
Let's have a conversation to see if we can move forward
together.
